# Loewe klang bar5 mr & klang sub5

Active soundbar and subwoofer set

## Dolby Atmos soundbar.

With a total music output of 440 watts crystal-clear, powerful 3D Dolby Atmos sound is guaranteed. Dolby Atmos, Dolby Atmos Music and DTS:X ensure an immersive movie experience.

The result: breathtaking three-dimensional surround sound like in a cinema or concert hall.

## Multichannel and multiroom.

Three HDMI connections and 4K pass-through leave nothing to be desired when connecting to UHD players, set-top boxes and game consoles.

The multichannel platform makes expanding the system a breeze, as additional klang mr speakers can be added to the existing setup in seconds.

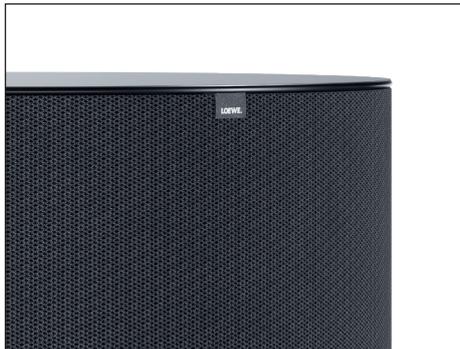

## Versatile streaming options.

Apple AirPlay, Google Cast and Bluetooth provide a variety of services such as Spotify, Amazon Music, Tidal, Deezer and Internet radio. Stream your favourite content at the touch of a button.

## The subwoofer: invisible power.

The round and pleasing 360° design allows to place the wireless subwoofer almost anywhere. Its powerful and controlled low-frequency sound spreads evenly and non-localisable throughout the room – without disturbing the neighbours with structure-borne noise: Thanks to the clever design with a precisely balanced, mirrored construction in hexagonal arrangement, it always remains outwardly vibration-free at peace in itself.

## Elegance and perfection in every detail.

A lacquered stainless steel plate covers the top of the subwoofer and simultaneously dampens any interfering stimulus through its sheer mass. The special two-yarn woven and robust acoustic fabric creates a vivid visual plasticity. The power connection and level control are unobtrusive located on the bottom and rear panels. The Loewe system colour basalt grey and the typical Loewe signature flag round off the harmonious 360° design.

## Bigger inside than outside.

The active subwoofer delivers a total music output of 360 watts and has in total of more than 1.000 cm<sup>2</sup> of effective membrane surface from 2 active 6-inch drivers and 4 passive radiators. This means it can easily play down to 35 Hertz low frequency and offers an astonishingly impressive bass foundation in the home cinema. The Loewe Wireless Digital Audio Link 2.0 ensures lossless and latency-free signal transmission.

## System component

### Loewe klang sub5

# Loewe klang mr5 | mr3 | mr1

Wireless active speakers for home cinema and multiroom audio

## Multichannel home cinema.

Loewe wireless digital audiolink (second generation) for lossless and latency-free wireless signal transmission in multichannel home cinema with Loewe klang mr as the active surround speakers.

## Multiroom audio

DTS Play-Fi, Apple Airplay and Google Cast offer a variety of services such as Spotify, Amazon Music, Tidal, Deezer and Internet radio.

## Bluetooth direct streaming.

Connect your mobile phone via Bluetooth directly to the speaker and enjoy your playlist.

## Touch surface.

The glass touch panel on the top is easy to operate and offers space for up to five favourites, which can be compiled from any source.

## Powerful sound.

The layout of the speakers in combination with passive radiators creates a perfectly balanced sound experience with 30 / 150 / 180 watts - with powerful bass and crystal clear high tones.

## Elegant.

The design is refined and elegant. The glass top with integrated touch panel and illuminated status LED is a tribute to the Loewe eye. The cabinet is covered with our high-quality acoustic fabric and blends perfectly into your living environment.
