

Loewe klang 1

LOEWE.

Music is pure emotion. It leaves positive traces in our brain and encourages our body to produce an extra dose of the “feel-good” hormone dopamine. A day without music is hard to imagine. It is an important part of our everyday life. Music moves, inspires and motivates us. Loewe klang 1 – for pure happiness.

Loewe klang 1

Loewe klang 1 speakers deliver an authentic and resonant sound experience. The finest subtleties in sound are clearly defined and precisely balanced. Speech is extremely clear too, whether loud or quiet as a whisper. However you choose to position the speakers – from the elegant floor stand to a book shelf in the corner or mounted on the wall.

The modern and elegant klang 1 speakers generate a powerful 120 watts of music power. Two full-range speakers create powerful sound, combined with a style that will blend harmoniously in any interior. Beautifully detailed with seamless fabric cover in Black, Graphite Grey or Light Grey and stylish textile-covered cable.

Loewe klang 1 subwoofer

300 watts of power for impressive sound. Distinguished by powerful and concentrated bass, the acoustic concept is based on one active speaker and two passive membranes for very intensive low frequencies. This impressive sound is packaged in a striking and very compact housing with a solid aluminium top surface. With a premium fabric cover in Black, Graphite Grey or Light Grey and sophisticated concealed cable routing, the klang 1 subwoofer will be a stylish feature in any room.

System

Loewe television sets integrate perfectly with Loewe speakers and subwoofers. The television acts as a centre speaker and opens up access to over 30,000 Internet radio channels and music streaming portals such as Tidal. Whether a 3.1 system with two speakers and one subwoofer or 5.2 surround sound with five speakers and two subwoofers – you can expand your home cinema system flexibly to meet your needs.

The Loewe klang 1 speaker and klang 1 subwoofer also work without a television set or audio system: Line-in allows you to connect notebooks, smartphones and other music sources directly, to enjoy exquisite sound with no additional system – even in the office.

Operation

The entire system can be controlled very easily using the Loewe remote control – from set-up to everyday use. No matter how many Loewe speakers and subwoofers are connected to your Loewe television set, all you need is a single remote control. Thanks to automatic signal recognition, one button press turns the TV, speakers and subwoofer all on together, it couldn't be easier. All settings are entered using the user interface on the TV, with many sound settings already configured.

Variety

The integrated table stand is ideal for set-ups on a shelf or sideboard. Its soft material is designed to protect sensitive surfaces.

Stunning sound and a stylish look: freestanding, with high-quality stainless steel floor stand and discreet concealed cable routing.

Quick and easy to assemble. The magnetic cover conceals the wall mount. Not forgetting the equally sophisticated concealed cable management.

klang 1 speaker. Flexible stand solutions, high-quality seamless fabric in Graphite Grey, Light Grey or Black.

With a powerful 300 watts of music power, the klang 1 subwoofer provides particularly intensive low frequencies.

Quality you can feel: remote control with a high-quality aluminium surface.

Two klang 1 speakers, one klang 1 subwoofer and the TV speaker as the centre speaker generate rich 3.1 sound.

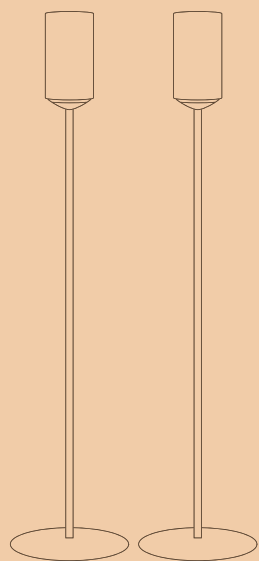

System highlights

Perfectly integrated with Loewe televisions in terms of design and functionality for the perfect listening experience

Can be used as a sound system: from 2.1 to 5.2 – with the Loewe television acting as centre speaker

Technical Information	klang 1 speaker
Principle	Passive speaker, 1-way closed
Nominal power handling / music power handling (sine / max.)	40 W / 60 W
Recommended amplifier power	10 – 75 W
Frequency range	135 Hz – 20 kHz (– 6 dB)
Acoustic pressure at 1 W	81 dB (at a distance of 1 metre)
Impedance	8 ohms
Volume	0.3 litres
Speaker complement	1 x 75 mm (3 inches) full-range speaker
Speaker connections	Metal spring clips, gold-plated (max. 2 x 25 mm ²)
Weight in kg	0.9
Colour	Black, Graphite Grey, Light Grey
Dimensions (width / height / depth in cm)	W 9.5 / H 17.7 / D 9.5

Floor stand solution

FS klang 1, Light Grey

Concealed cable routing

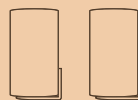

Height / depth (cm) incl. floor stand solution
H 100.0 / D 23.5

Table/shelf solution, included with delivery

2 items

Width / height / depth (cm)
W 9.5 / H 17.7 / D 9.5

Wall mount

WM klang 1, Black

Rotatable, concealed cable routing

Height / depth (cm) incl. wall mount
H 18.0 / D 11.0

Clear and simple: audio settings and features are controlled using the Loewe television menu and remote control

Solid housing with no visible screws, covered with seamless acoustic fabric

Technical Information	klang 1 subwoofer
Principle	Active subwoofer, passive radiator
Nominal / music power (sine / max.)	150 W / 300 W
Frequency range	35 Hz – 250 Hz (– 6 dB)
Power amps	Total output: 300 W, 1 digital amplifier (Class D) for subwoofer channel: 150 W (sine), 2 digital amplifiers (Class D) to connect additional speakers: each 75 W, 4 ohms
Subwoofer gain	– 6 dB / + 6 dB
Features	Phase switch, sub-sonic filter, bass equaliser, stand-by switch, signal recognition, Digital Audiolink connection (in/out), cinch connections (line in): left, right, subwoofer
Speaker complement	1 woofer, 2 passive radiators
